FREQUENTLY ASKED QUESTIONS

Lake Level Special Assessment Hearing

Why am I receiving this notice?

You are receiving this notice because you own lands within the lake level special assessment district that was previously established by the Presque Isle County Circuit Court for operating and maintaining Lake Esau's legal lake level.

What is a special assessment district?

A special assessment district is an area of land designated to receive special assessments for particular benefits it receives from certain public projects, such as lake levels.

Will the public hearing address the lake level or water source?

No. The public hearing will address the assessment roll and computation of costs only. Any questions or comments regarding the lake level or water source should be directed to **(989) 376-0025** or presqueislelakelevels@gmail.com.

Do I have to attend the public hearing?

You are not required to attend the public hearing; however, you **must** protest in person or by writing in order to reserve your right to appeal the proposed special assessment. All protest/objection letters must be received by August 10, 2026 (please keep this in mind when mailing protests/objections).

What is my special assessment amount?

Your estimated assessment amount is listed on the enclosed notice and will be available at the public hearing. Tentative assessment factors and the estimated assessment amount for each parcel are also available on an interactive map at presqueislelakelevels.org.

How are assessments determined?

The assessment methodology assigns factors to each parcel based on its access type, property type, and lake frontage. A typical direct access parcel with up to 200 feet of frontage is assigned a total assessment factor of 1.5. A typical indirect access parcel in the Presque Isle Harbor Association is assigned a total assessment factor of 0.1.

What will the special assessment be used for?

The special assessment will cover costs related to administration, operation, and maintenance of the lake level incurred between January 2024 and final approval of the special assessments in 2026, along with the costs of a preliminary engineering study related to the lake level and water source. The specific costs include:

- Development of district boundaries & lake level order updates
- Preparation of assessment methodology & levying assessments, including appeals
- Preliminary engineering study
- Website & public communications
- Notices & landowner mailings
- Contingency

When will I receive a bill for the special assessment?

Lake level special assessments appear on Winter tax bills and are only levied when costs are incurred related to the lake level. The proposed special assessment will be spread over 3 years and will appear as a line item on the Winter tax bill in 2026, 2027, and 2028.

Is there interest on the assessment?

No. Because the County is not obtaining financing for any of the costs covered by the assessments, there is no interest on the total assessment amounts.

Do property owners get to vote on this?

There will be an opportunity for property owners to provide public comment during the public hearing, but state law does not give property owners or the public an opportunity to vote on the assessments.

Will there be future special assessments for Lake Esau?

Following completion of the preliminary engineering study, the County will evaluate the long-term options for Lake Esau's water source and legal lake level. It is anticipated that additional special assessments may be levied in the future based on the specific option that is selected.

How can I get more information?
